2022 MINI SESSION GUIDE

What is a *mini session*

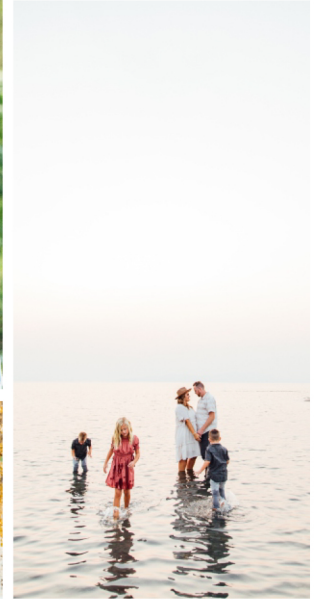

Mini sessions are short and simple family sessions that give you just the necessities. They are 20 minutes long and come with 25 included images. They are perfect for lots of different types of families. If you have young kids, older teenagers, or just don't need a lot of pictures, this is a great option for you, however this option is only available for families of 6 people or less.

Since we do not have a ton of time with mini sessions, we mostly focus on posed family shots. If you are wanting a lot of candid shots, loving moments between each family member, and special groupings that take longer, then I highly suggest booking a full session.

WHAT TO EXPECT

FAMILY MINI SESSIONS

WHAT TYPE OF PICTURES SHOULD I EXPECT?

We will get 2-3 poses of the whole family, and a few fun candid shots in between. Minis also come with all the same types of posing we do in a full session, we just have less time so less options will be given.

HOW CAN I PREPARE FOR THE SESSION?

You should arrive to the session at least 10 minutes early to make sure everyone is out of the car, fully dressed, and ready to go when the session begins. Arriving late to a mini session will result in a shorter session and potentially less images to choose from.

DOES THE PHOTOGRAPHER PICK THE IMAGES?

I will upload the unedited images to a gallery where you get to pick your favorite 15. If you want more than 15, you can purchase additional images.

DO I GET TO PICK THE LOCATION?

Minis are booked for pre-determined locations and dates based on full sessions I already have booked. When booking a session, you will receive a list of dates I have available with the locations planned for each date.

CAN I SHOW YOU A PINTEREST BOARD OF PICTURES I WANT?

You can choose your favorite 1-2 images and we will try to get them. Every family and session is different. Pinterest is a great resource but it is full of photographers' very best and favorite shot from their session, so to expect a whole pinterest board of the very best work from multiple photographers is just unrealistic and it doesn't allow me to use my own creativity during the shoot, resulting in everyone being unhappy.
